

# NORTH GLENGARRY FIRE TRAINING FACILITY

**NORTH  
GLENGARRY**

*Ontario's Celtic Heartland*

## TRAINING FACILITY

The North Glengarry Fire Training Facility has been designed by firefighters, for firefighters. From site layout to equipment and modules, the training centre provides the hands-on experience to prepare your department for real incidents.

From auto extrication to structure fires, the training centre offers a variety of props to facilitate the hands-on learning of your department for NFPA certification, skills and tactics training

## TRAINING PROPS

### CLASS A BURN CONTAINER

Train for property conservation, forcible entry and attack

### MULTI-STORY BUILDING

Train for size up, ladder use, search and rescue, attack, and overhaul.

### ROOF PROP

Train for horizontal and vertical ventilation, ladder set up, mount and descend.

### GRASS FIRE

Ground cover live fire training

### TRAINING SITE

The Training Facility offers the space to complete a variety of NFPA Skill Sheets for evaluation

### VEHICLE FIRES

Using Draeger System 64 - Car prop, this live fire training offers three independently controlled fires (engine, passenger area and trunk).

# TAKING TRAINING TO THE NEXT LEVEL

The North Glengarry Fire Department Training Centre is now available for rental for your training needs.

- Customized packages offering full day or half day rental options to meet your department's needs
- Training props for NFPA Firefighter I and II Skill Sheets
- Classroom space for pre-training meeting, theory instruction and debriefing
